AGU ADVANCING
EARTH AND
SPACE SCIENCE

[Join AGU](#) | [Donate](#) | [Eos.org](#) | [AGU.org](#) | [AGU Connect](#)

13 April 2023

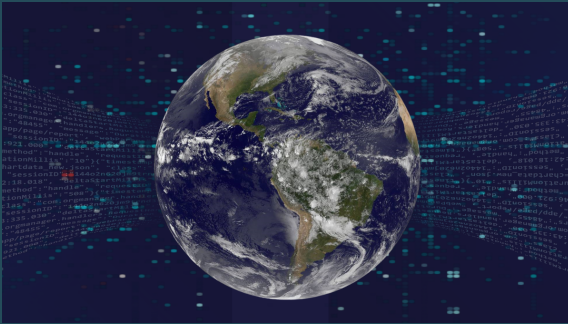

This week it's time to dive in and power up!

We're now accepting session proposals for 2024 Ocean Sciences, research submissions for our Big Data Special Collection and sign-ups for our Science Policy Mentors. Get connected with the 2022 CEO Report. And get inspired with our special video presentation of the AGU Community Poem.

OSM24 Session Proposals Open

Now accepting session proposals for the [2024 Ocean Sciences Meeting](#), the flagship conference for the greater ocean sciences community. #OSM24, taking place 18-23 February in New Orleans, is an Endorsed Decade Action program with the United Nations Decade of Ocean Science for Sustainable Development. [Submit a proposal or town hall by 24 May.](#)

Submit your research to a NEW special collection on using Big Data to understand climate variability, natural phenomena and rapid environmental change.

2022 AGU CEO Report

The 2022 AGU CEO Report, *The Power of Partnerships: Moving Science Forward*, focuses on how AGU programs and projects are advanced through partnerships which support a growing and diverse scientific community that includes both discovery and solutions for the benefit of humanity and the environment. For more information about the report please contact development@agu.org.

This April AGU celebrates National Poetry Month by asking folks to share their own original poem for the planet, using the tag #PoetsForScience. Here's to words and actions speaking loudly for our shared future!

SHARE

Join a science policy webinar on food and water security, 20 April at 7:30 AM ET. Organized to highlight the geoscience policy nexus as it relates to food & water security, this webinar will be a moderated 1-hour discussion with a panel of science policy experts. View the experts and sign up online.

Third Pod from the Sun

One giant leap: For opening up the sciences

Cynthia Hall is the community coordinator for NASA's Transform to Open Science program, where she works with organizations and communities to build diverse scientific collaborations with NASA. She works to make scientific research and processes more inclusive and accessible to everyone. Cynthia talks with us about open science, her influential NASA Academy internship, and backpacking on the job from Zion National Park to the Ganges River.
